SUMMARY

I am a Web & Android Developer specializing in Laravel for web development and Kotlin & Flutter for Android applications. With over 2 years of experience as a Programmer at the Bengkulu City Communication and Informatics Agency, I have developed various websites and applications to enhance government efficiency and public services. A graduate of Informatics Engineering at the University of Bengkulu, I am actively involved in technology organizations and focus on developing innovative digital solutions. Additionally, I have been a freelancer for over 4 years, building websites and applications for various clients. My expertise includes Laravel, Kotlin, Flutter, UI/UX, API Integration, and government information systems.

PROFESSIONAL SKILLS

HTML

CSS

Javascript

PHP
